

CHARACTER CARDS: FACES OF THE PAST

A PRINTABLE COLLECTOR SET FOR A PAST WITH TWO FACES

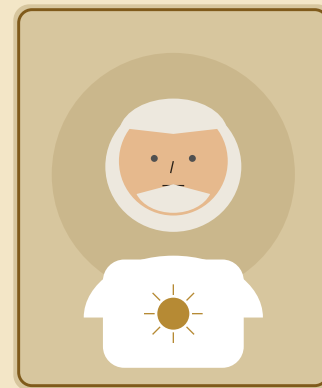

FRANK EDISON

ANDRUS

MERCOS

GYEM V

PRINT • CUT • COLLECT

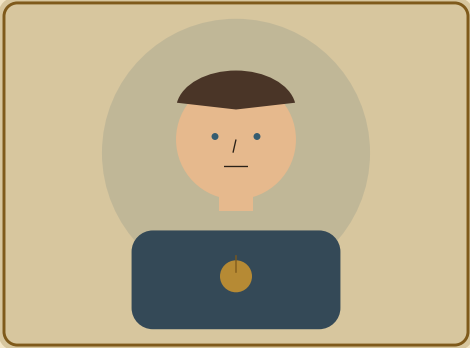

This set contains twelve main character cards plus a bonus Shadow Edition sheet. Each front has original stylized character artwork, each back includes affiliation, abilities, important objects, a spoiler-light fact, and a short quotation. For the cleanest two-sided cards, print the front and back sheets single-sided, cut them out, and glue matching fronts and backs together on cardstock.

CONTENT NOTE: Minor story details appear on the backs; major late-book reveals are deliberately avoided.

Inspired by the characters and lore of A Past With Two Faces by Michael D. Young
